

Collins Brothers - Magical comedy

Collins Brothers' black humor can not be put in any intended drawers.

Sitting between all chairs, they fight with the everyday malice of the object.

Already at the Monte Carlo festival in 1990 they met the nail on the head and won the show & business prize.

Later, an engagement hunted the other and all at so famous entertainment-institutions like the Wintergarten Varieté Berlin, the Zizanni Teatro of San Francisco, the Cirque du Soleil, the Big Apple Circus in New York or the german circus Flic Flac.
