

The Living Fountain

Category : Performers

Published by [Magicircus](#) on 2008/10/2

The Living Fountain is a unique entertainment experience, where nature comes to life with an extraordinary combination of movement, music and live interaction.

A statue of a beautiful woman transforms herself with magical elegance into a living fountain. Delicate jets of water appear from her fingertips as a shimmering halo cascades from the crown of her head in this beautifully choreographed display. Indoors or outdoors The Fountain makes for a truly enchanting experience
